TO THE HONOURABLE THE SPEAKER AND MEMBERS OF THE HOUSE OF REPRESENTATIVES

The following citizens of Australia draw to the attention of the House that there is a need to retain and upgrade existing sporting clubs and their facilities as well as retain open space that is made available due to school mergers and sale of existing State Government facilities, for playing fields

We the undersigned call on the South Australian Government to:

- Review their current approach to the sell off of surplus land that has been made available as a result of mergers, land sales and closing down of existing facilities eg Glenside Hospital, Magill Training Centre, proposed merger of Norwood/Morialta High School
- Consider its priorities that sees it retaining open space in order that playing fields can be developed for our children's use in the future years
- Take seriously the need to upgrade existing community sporting facilities and playing fields.

Your petitioners therefore request the House to support this important community issue and encourage the State Government of South Australia to develop a comprehensive policy to retain valuable open space which could be lost to new developments.
